TAX PLANNING AREAS TO CONSIDER

There are fairly significant tax changes coming if the new government follows through with all the changes that they promised during their campaign. Please consider the following planning areas prior to 2017, if you are an owner/manager of a business.

□.	You might want to repay shareholder loans as in most cases if they are not repaid within one year after the company's taxation year in which the loan was made, they will be included in your income. Also, if you borrow money from a corporation with no interest or a low rate, you may be receiving a taxable benefit and have to include it on your tax return. It is a good idea to clear shareholder loan debit balances.
	It is always good strategy to pay out capital dividends and reduce the capital dividend account to Nil.
	Look into crystallizing the lifetime capital gains exemption.
	Reasonable salaries paid to your family members for employment in your company can save taxes.
	Pay yourself a salary with enough earned income to maximize the RRSP contribution for the year following
	For payrolls under \$490,000 there is no employer health tax owing.
